ABSTRACT

This manual offers guidelines to Oregon school districts and community colleges for budget preparation and accounting. The publication contains all changes from the 1973 legislative session; describes the budgeting process; and gives sample agendas, calendars, planning charts, and resolutions to be enacted by a school board in making up a budget. It is the first manual in a series to be published following each legislative session, with reports covering other significant changes to be published during the interim year. Samples provide illustrations of the proper school district accounting process for receipts and expenditures. Two sections describe the procedures to follow in conducting a school levy for both the local and the intermediate education districts. The manual concludes with a section containing statistical information on State funds for schools, salaries, budgets, expenditures per pupil, enrollment, and the population of Oregon by counties. EFFECTIVE BUDGET BUILDING

INTRODUCTION

This manual contains all legislative changes from the 1973 session and may be considered as an authoritative guide for budget preparation and accounting. In the future a new manual will be published following each legislative session and will be available by the fall of the legislative year. In the interim year, significant changes will be released as necessary.

School district and community college personnel should also be aware of the Budget Manual for Municipal Corporations, Revised, January, 1972, and published by the Department of Revenue. This publication, EFFECTIVE BUDGET BUILDING, supplements the Department of Revenue Manual.

School districts and intermediate education districts (IED's) are aware of the major changes in the budgeting and accounting procedures planned for implementation at the local and intermediate level by FY 1976. The new accounting and budgeting system, based on the U. S. Office of Education Handbook II, Revised, has been published and distributed to all districts in our "Training Package for Implementation of New Accounting and Budgeting Systems" (Accounting Handbook II, Revised). Workshops are being held throughout the state by our Business Systems personnel; the initial workshops were held for the IED's and they are now playing a major role in training the districts in their area.

It is anticipated that the new accounting and budgeting system, related budget forms, etc. will be published in the 1975 edition of EFFECTIVE BUDGET BUILDING.

Pending receipt of recommended guidelines on an Educational Resources Management System, school districts and community colleges are urged to continue to identify needs, establish goals, determine priorities, and develop program plans.

Questions, or suggestions concerning this manual should be directed to the Business Systems Section, Telephone No. 378-3582.

THE BUDGETING PROCESS

The school budget document is probably the most important single publication which any school system has to present to the local citizens. It is the instrument which expresses the plan and program. It is also the expression in dollars and cents of the community's educational policy. In preparing the budget, one should bear in mind that the committees analyzing budgets are interested in the following types of information: (1) program - objectives, (2) significance, (3) examples of current work in progress, (4) cost.

The superintendent, as executive officer of the district school board, should furnish the leadership for his board in taking the budget through its several stages of growth. Growing out of the long-term plan and the budget file, the preliminary proposed budget is compiled and presented to the budget committee. After final adoption by the levying board, the budget becomes the official budget as required by the Local Budget Law.

Careful attention to the content, organization, and format of the annual school budget document will help guarantee that community decisions as to the financial levy at which the public schools will be supported are wise decisions. Suggested features of the budget document follow:

COVER Indicate on the cover that this is a "proposed" budget, the date the budget document will be presented to the committee, fiscal period covered, name and number of the district, county, and state.

PERSONNEL On the first page list the school board members with the dates that their terms expire, appointed members of the budget committee with the dates their terms expire, and the budget development staff (supervisors, directors, business office head, clerk, etc.)

The second page could contain the local committeemen, steering committees, advisory committees, and the school principals.

**BUDGET
MESSAGE**

It is suggested that the budget message be written into the budget document as a letter of transmittal from the executive officer of the district to the budget committee.

The budget message shall: (ORS 294.391)

- (1) Explain the budget document
- (2) Contain an outline of the proposed financial policies for the ensuing year
- (3) Describe in connection with the financial policies of the school district the important features of the budget document
- (4) Set forth the reason the salient changes in appropriation and revenue items from the previous years
- (5) Explain the major changes in financial policy

**BUDGET
CALENDAR**

Put a calendar in the budget document to outline the schedule of budget development and the procedures for taking care of legal steps of the Local Budget Law.

**TABLE OF
CONTENTS**

After your document is ready for publication, prepare a well-organized, detailed table of contents for ready reference with page numbers and place it near the front of the document.

**THE
BUDGET**

The budget proper should contain the Financial Summary, Budget Resources in Detail, Budget Requirements in Detail, Budget Summary, etc., as illustrated in this publication. To help the budget committee with its work, explanations of changes in expenditures should be included - these could follow each major area summary of the General Fund, such as: Administration, Instruction, Transportation, etc.

The dates are designed for districts and communities with weekly newspapers.

Underlining indicates changes to the previous year's budget calendar procedures.

ASSUMPTIONS: Monthly Board Meeting -- Second Tuesday;
Weekly Newspaper Published -- Thursday;
First day of school is Tuesday following Labor Day;
Levy Election is held on first Tuesday in May.

Dates:

Procedure:

July 10 1973

BOARD MEETING. Appoint new budget committee members. Designate the Budget Officer, and reorganize the board.

Note: Alternate budget procedures that govern school districts in Multnomah County are listed on a page following this calendar.

August 14 1973

BOARD MEETING. Invite all appointive budget committee members to attend board meetings and keep them informed in advance of board meetings at which budget-related matters will be discussed.
August activities:

1. Plan a proposed budget calendar to negotiate with exclusive representatives which should include an effective date, a re-opening date, and an expiration date. Assign confidential employees. Identify supervisors that will be on the management team; revise job descriptions spelling out supervisory authority.

August 14 - Continued

2. Plan first fall Collective Bargaining meetings (HB 2263).
3. Develop procedures to conduct elections, if needed, of the representatives for certificated and classified personnel. If a petition to challenge the present representation or to create a bargaining unit has been received, it should be filed with the Public Employee Relation Board (PERB), 430 Summer Street NE, Salem, (378-3807).

September 4

First Day of School.

September 11 1973

BOARD MEETING. Review and discuss new legislation that affects the school district. Develop any changes deemed advisable in the district's educational plan, and project costs.

September activities:

Adopt a budget calendar under ORS 342.470. Include date for budget message.

October 5 1973

Collective Bargaining (HB 2263) becomes a new law.

October 9 1973

BOARD MEETING. Disseminate educational plan for the ensuing school year to serve as a guideline for staff and community involvement in budget preparation.

December 2 1973

A suggested deadline for the employe exclusive representative and board to reach an agreement on budget-related issues. Notify the PERB of the status of negotiations to select a mediator if agreement is not reached (15 days of mediation). Both parties may agree to submit the issues to binding arbitration. Then mediation and factfinding stops.

December 11 1973

BOARD MEETING. Review and discuss proposed budget estimates and personnel assignment changes recommended by the staff. Grant authorization for the printing of the proposed budget document.

December 20 1973

A suggested deadline for completion of Mediation, if needed. If an agreement has not been reached, notify the PERB that factfinding is to be initiated. The board and the exclusive representative may select their own factfinder.

January 8 1974

BOARD MEETING. Discuss budget building progress.

January 31 1974

Publish NOTICE OF BUDGET COMMITTEE MEETING in a newspaper of general circulation in the district. Notice to be published not more than 14 days nor less than 8 days prior to date of the meeting.

NOTICE OF BUDGET COMMITTEE MEETING

This is a public meeting where deliberations of the Budget Committee will take place, and any person may appear and discuss proposed programs with the Budget Committee at that time.

A copy of the budget document is available at _____ (Normally the address of _____ the school district administration office will appear here.)

(Name of Budget Officer)

February 4 1974

Suggested deadline for factfinding, if required (30 days for factfinder after hearings).

February 12 1974

Initial meeting of the Budget Committee. Elect chairman and secretary.

Presentation of the budget message by the executive officer and the budget document by the budget officer. Consider recommendations from citizens. Announce the time of the next meeting, if any. The budget committee shall schedule meetings as required; it may demand and receive any information it requests and compel the attendance of any employee at its meetings. All meetings shall be open to the public. The budget document is filed in the district office as a public record, and a copy of the document or part thereof is made available to any person requesting it.

BOARD MEETING. Personnel files should be reviewed by the superintendent and the board in preparation for personnel recommendations in March. All certificated personnel are to be notified by March 15 that they are, or are not, elected.

March 4 1974

Deadline for Basic School Support Fund estimate from the Superintendent of Public Instruction.

March 12 1974

BOARD MEETING. Suggested target date for approval of budget by Budget Committee. Confirm dates for publication of budget and for budget hearing.

March 12 - Continued

Note: School districts in Wheeler, Grant, Harney, and Wallowa counties are governed by additional budget procedures outlined on a page following this calendar.

March 15 1974

Deadline for notification of election or rejection of certificated personnel.

March 21 1974

First publication of the NOTICE OF SCHOOL BUDGET HEARING and the summarized budget (not more than 25 days nor less than 15 days prior to hearing). See pages 53-55 for sample of publication packet.

The local Budget Law provides that Municipal corporations may publish the conventional budget summary as in previous years, or a program/activity budget summary accompanied by narrative descriptive statements. ORS 294.416; 294.418.

Note: Alternate methods of publicizing budgets of certain school districts are outlined immediately following this calendar.

March 28 1974

Second publication of the NOTICE OF SCHOOL BUDGET HEARING (not more than 14 days nor less than 8 days prior to hearing). The summarized budget is not required to accompany this published notice; however, the notice must state the name and date of the newspaper which contained the published budget summary. See page 52 for sample of notice.

April 1 - May 1 1974

Petitions will be accepted for an election for exclusive representation of employees. When petition is received, contact the PERB.

April 1 1974

Deadline for teachers to notify the board of their acceptance or rejection of the position offered them. Prior to April 1, 1974, not less than 35 days before the date of election, the district shall:

- *1. Cause publication to be made in compliance with ORS 259.080 259.090, and 259.100.
2. Notify County Clerk of the principal county of the election to be held. See ORS 259.010 (6), (8); 259.070; 259.080; 259.090; 330.360; 310.330.
3. Designate the newspaper for publication not less than 30 days before the election (ORS 259.100).

April 6 1974

Deadline for school board candidates to file a certificate of nomination. (30 days before date of election). (259.070)

*For further information on new election laws, see page 83, and contact your County Clerk.

April 9 1974

BOARD MEETING. Public Hearing on the budget as approved by the budget committee. It may be necessary that a brief board meeting follow the public hearing to determine whether the amount to be voted upon the first Tuesday in May shall be changed from that in the approved budget as a result of testimony presented at the hearing. The amount of the tax levy in the published budget may not be increased without a republication and another hearing.

April 18 1974

First publication of election notice on levy outside six percent limitation (not more than 25 days nor less than 15 days prior to election). Post the notice of election in at least three conspicuous public places and at each polling place in the district (at least 10 days prior to election date). See page 85 for sample of notice.

April 25 1974

Second publication of the election notice (not more than 14 days nor less than 8 days prior to election).

May 7 1974

First Tuesday in May, school district election for new board member(s) and for approval of the proposed tax levy outside three six percent limitation. Polls are open from 8 a.m. to 8 p.m. Other possible election dates: The second Tuesday in June and fourth Tuesday in September. (See page 83)

May 14 1974

BOARD MEETING. Canvass election results. The clerk shall record in the minutes the time and place of posting and publication of election notices and contents of such notices.

June 11 1974

BOARD MEETING. Adopt the budget, make the appropriations, and declare the tax levy (resolutions should be entered into the board minutes for each of these actions). Expenditures in each fund of the adopted budget may be increased up to ten percent above that in the published budget provided that the tax levy of the published budget is not exceeded. To exceed either of these restrictions would require republication of the budget and another public hearing. See page 17 for sample resolutions.

July 1 1974

Effective Date of HB 2263, the new Collective Bargaining law.

July 15 1974

The tax levy shall be certified to the county assessor.

September 1 1974

Reopening Date to renegotiate collective bargaining agreement.

June 30 1975

Expiration, unless the agreement is for more than one year.

NOTE:

The foregoing calendar provides for the (1) preparation of the budget, (2) review and approval of the budget, (3) the budget hearing, and (4) the levy election, in that sequence. This appears to be the logical and expedient sequence for these events to occur.

However, Oregon law does not mandate that the levy election follow the budget preparation process. The levy election may precede the preparation of the budget, or it may occur at any point during the budget development process.

Below appear some alternate sequences which a school district may use in its budget calendar:

- | | |
|-------------|--|
| Alternate 1 | <ul style="list-style-type: none">-Levy election based upon an estimate of need-The first Tuesday after the first Monday in November, or-The third Tuesday in February-Preparation of budget (by budget officer)-Review and approval of the budget (by budget committee)-Budget hearing |

Provisions for Alternate Publication of the Budget

If no newspaper is published within a municipal corporation, a district has two alternatives: (1) publishing the budget summaries and notice of public hearing in a newspaper of general circulation; (2) sending, by regular mail, copies of the budget summaries and a notice of the hearing to the legal voters of the district at least 20 days prior to the hearing. Only one copy of the summaries and notice need to be mailed to a household in which there are two or more legal voters. If distribution is made by mail, a notice must be published once in a newspaper of general circulation in the district giving the following information: (ORS 294.421)

- A. The date, time, and place of the hearing by the governing body on the budget.
- B. The place and time where a copy of the budget may be inspected or obtained by the public.
- C. The total budget and taxes proposed to be levied.
- D. The change in the amount of the proposed tax levy and preceding year's proposed tax levy.

The publication shall be not less than 8 nor more than 14 days prior to the budget hearing.

If no newspaper is published in a municipal corporation and if the total estimated expenditures do not exceed \$50,000, a municipal corporation may: (1) post, in three conspicuous places, copies of the budget summaries and notice of the public hearing; or (2) publish them in a newspaper of general circulation in the district; or (3) mail the budget summary as described in the preceding paragraphs. The posting must be done at least 20 days prior to the date of the hearing on the budget. If the summaries and notice are posted instead of published, a notice must be published in a newspaper of general circulation as in the first example above. (ORS 294.421)

SPECIAL PROCEDURES FOR DISTRICTS IN
SPECIFIED COUNTIES

NOTE: Districts in Multnomah County which anticipate asking voter approval of a special levy shall so notify the Tax Supervising and Conservation Commission at least 55 days prior to the date of the election.
(ORS 294.655)

- I. Steps that govern Multnomah County school districts not exceeding 100,000 population which elect to hold their own public hearing.
 - A. Following its review and revision, if any, of the budget document, the budget committee submits the document, before it is approved, to the Tax Supervising and Conservation Commission at least 20 days before the budget summary is to be published.
 - B. Upon receiving the budget document back from the commission, the budget committee acts upon the commission's recommendations and approves the budget document.
 - C. The school board sets the date for a public hearing and publishes a notice of the hearing, together with a summary of the budget document, as required of other school districts.
 - D. A newspaper published within the boundaries of the district is to be used if there is such. If not, one of general circulation in the district will be designated by the board.
 - E. If the tax base is insufficient, the school board sets a date for an election to exceed the six percent limitation and publishes twice in the newspaper a notice of the election, the first publication not less than 15 days nor more than 25 days and the second publication not less than 8 days nor more than 14 days prior to the election date.
 - F. The school board adopts the budget, makes the appropriations, and declares the levy. Within limits stated in the law, the school board may amend the budget prior to adopting it.
- II. Steps that govern the Multnomah County school districts not exceeding 100,000 population which elect to have their budget hearing conducted by the Tax Supervising and Conservation Commission.
 - A. Following its review and revision, if any, of the budget document, the budget committee approves the budget.
 - B. The school board submits the approved budget to the commission which sets the date for and conducts a public hearing on the budget with the school board or its representatives present at the hearing.

- C. The school district publishes its budget summary and notice of school budget hearing as is required of other districts.
- D. Upon receiving the budget document back from the commission, the school board takes action that is outlined in I - E above, if applicable, and I - F.

III. Steps that govern Multnomah County school districts that have a population over 100,000 but not exceeding 250,000 are the same as listed in Section II above.

IV. Steps that govern the Multnomah County school districts that have a population over 250,000.

- A. The school board approves the budget and submits it to the Tax Supervising and Conservation Commission at least 20 days prior to a public hearing date set by the commission.
- B. The commission sets the date for and conducts a public hearing on the school district's budget. The school board or its representatives are to be present at the hearing.
- C. The school district publishes at least 8 and not more more than 14 days prior to the hearing a Notice of School Budget Hearing, the total budget requirements and taxes proposed to be levied, and the change in the amount of the proposed tax levy and the last preceding proposed tax levy.
- D. Upon receiving the budget document back from the commission, the school board takes action outlined in I - E, above, if applicable, and I - F.

V. School districts of Wheeler, Grant, Harney and Wallowa counties

- A. The school board forwards the budget to the Intermediate Education District Board not later than March 15.
- B. The I.E.D. Board examines the school district budgets and by April 10 notifies districts of contemplated changes, if any, in the budget.
- C. The I.E.D. Board, upon request, meets with the local board for the purpose of discussing contemplated changes.
- D. The I.E.D. Board notifies districts by April 20 of final local budget approved by the I.E.D. Board.

- E. The local board determines the district special levy, if any, to be made to supplement the budget approved by the I.E.D. Board.
- F. If a district special levy is determined necessary, the procedure in other counties is carried out to set a date for an election to exceed the six percent limitation. At this point the steps outlined on page 8 will be followed, except the dates will be different.

BUDGET PLANNING CHART

Illustrated above is a suggested diagram that may be helpful for the budget officer to chart significant dates on which certain actions must occur in connection with the development of the budget as set forth in the Local Budget Law.

The chart is a variation of one developed in the Multnomah Intermediate Education District.

DISTRIBUTION OF SCHOOL DISTRICT BUDGET

THE OREGON DEPARTMENT OF REVENUE
AND
LOCAL BUDGETING

Authority for the entry of the Department of Revenue into the budgeting procedures of school districts is contained in ORS 294.490 and ORS 294.495. The first statute gives the Department of Revenue authority to obtain compliance with the Local Budget Law. This same statute prohibits the Department of Revenue, however, from interfering with the fiscal policy of any municipal corporation. The second statute gives the Department of Revenue sole authority and responsibility to construe the Local Budget Law and to issue rules and regulations to insure compliance with the Local Budget Law.

The Department of Revenue fulfills these duties by (1) providing all municipal corporations with instructional materials such as a "Budget Manual for Municipal Corporations;" (2) by reviewing as many budgets each year as available manpower permits. This budget review is conducted, not with the aim of passing judgment upon the policies as expressed by the budget document, but to determine the measure of compliance with the Local Budget Law, and to determine what action should be taken to improve budgeting.

Review of the local school district budget documents has shown that there are three very common errors.

1. The unappropriated balance at the end of the second preceding year is quite often different in amount than the available cash on hand or net working capital of the first year preceding. Obviously, the balance as of June 30, 1973, should be the same as the beginning balance on July 1, 1973.
2. A considerable discrepancy often exists between the amounts shown under various headings and classifications in the summary and in the detail. Detail schedules obviously should supply only additional information to summary schedules - not different information.
3. Supporting detail for some of the summary schedules is often omitted entirely. For example, detail salary lists to support the summary amounts shown under "Salaries for Administration," or "Salaries for Instruction," etc., are frequently omitted.

Each school district has been mailed a copy of BUDGET MANUAL FOR MUNICIPAL CORPORATIONS by the Department of Revenue. That manual should be used as a reference in budgeting procedures along with this manual.

FUNDS, ACCOUNTS, AND FORMS

The standard receipt and expenditure accounts and codes which appear on the current budget forms are listed below. To help standardize budget procedures, specific items that should be classified in each account are described below.

Transfer to Other Funds

When disbursements represent a transfer out of one fund into another fund of the school district, the name of the fund to which the sum of money is transferred should be stated.

Even though a check is usually drawn to effect a transfer, the disbursement is not to be considered an expenditure of the source fund.

ANALYSIS OF INCREASES IN BUDGET REQUIREMENTS

Experience has indicated that many districts do not analyze and explain proposed increases in school budgets in a manner that assures general public understanding and as a result, approval of proposed levies is jeopardized. Accordingly, serious thought should be given to clarifying budget information.

There are numerous ways to present this analysis and comparison, but as a minimum, it is suggested that the data should be presented in two ways:

- (1) By expenditure function in the General Fund (Administration, Instruction, Transportation, etc.)
- (2) By financial summary of increased costs in each fund and total taxes to be levied.

Examples of each of these follow (figures based on sample budget in this publication).

1. BY EXPENDITURE FUNCTION (ADMINISTRATION, INSTRUCTION, ETC.)

Example: 1970-71 Requirements for instruction	\$3,209,431
1969-70 Requirements for instruction	<u>\$2,733,134</u>
Increase in costs of instruction	<u>\$ 476,297</u>

The major reasons for this increase are:

- Changes in certificated personnel and classified personnel salary schedule. An eight percent cost of living adjustment was given all employees. \$ 204,346
- An enrollment increase of 500 children will require an additional 19 teachers (25-1 ratio). \$ 121,600
- The addition of a seventh period at three junior high schools will require an additional six teachers. \$ 38,400
- The initiation of a foreign language class in our elementary schools will require an additional two teachers. \$ 12,800

- The district plans to use teacher aides on a much broader scale than last year. Using two aides, we are able to provide released time for certificated staff to devote to class preparation, educational tasks. \$ 51,666
- Increase in costs of teaching supplies, textbooks, library books and supplies due to inflation and increased enrollment. \$ 47,485
\$ 476,297

2. BY THE FINANCIAL SUMMARY AND TOTAL TAXES TO BE LEVIED

Example: 1970-71 General Fund levy	\$3,390,154	
1969-70 General Fund levy	<u>\$2,645,726</u>	
Increase in General Fund levy		\$ 744,428
1970-71 Debt Service Fund levy	\$ 585,676	
1969-70 Debt Service Fund levy	<u>\$ 445,971</u>	
Increase in Debt Service Fund levy		<u>\$ 139,705</u>
Total increase in levy		<u>\$ 884,133</u>

The major reasons for this increase are:

- Personal Services

Changes in salary schedule	\$ 241,468
Additional personnel	\$ 239,522
- Materials and Services

Increase in employer contributions for employee retirement and insurance	\$ 116,700
Increase in price index	\$ 20,815
Supplies for increased enrollment	\$ 38,710
New programs	\$ 12,750
Increase in utility (telephone, water, sewer) rates	\$ 5,200
- Capital Outlay

Additional instructional equipment (explain)	\$ 10,620
Equipment for additional staff	\$ 9,390
Improvement of sites and remodeling (explain)	\$ 2,430

• Payments to Other Schools

Increase in tuition for students attending school in _____ district	\$ 1,758
• Operating contingency (explain)	\$ 5,000
• Additional district contribution to School Lunch Program	\$ 8,885
	<u>\$ 713,248</u>
• Increased Debt Service requirements due to passage of new bond issue during year	<u>\$ 105,804</u>
• Total increased requirements	\$ 819,052
• Less increased resources in General Fund and Debt Service Fund	<u>\$ 15,275</u>
• Net increased requirements	\$ 803,757
• Add taxes to be levied but not received in ensuing year (10 percent of \$803,757)	<u>\$ 80,376</u>
• Increase in taxes to be levied to meet increased requirements (General Fund and Debt Service)	<u><u>\$ 884,133</u></u>

HIGHLIGHTS OF HB 2037

All school elections are subject to ORS Chapter 259 as amended by HB 2037. New election laws now apply to all school districts, IEDs and community colleges. For election purposes they are all school districts.

The county clerk of the principal county is the election officer for all school district elections.

The principal county of all community colleges, common, union high and administrative districts is the county in which the chief administrative officer of the school district maintains his office.

The registrar of elections in the county where an unzoned IED is located shall be the election officer for the unzoned IED. (Sec. 48 (2))

In IED districts, which are zoned, an election shall be held in those zones from which a member or members are to be elected, and in the district as a whole when members at large are to be elected.

Where an IED encompasses more than one county, the county clerk of the county in which the greater portion of the value of all taxable property in the district is located shall be the election officer responsible for conducting a district election. County clerks in the other counties shall cooperate. (Sec. ORS 259.170 as amended)

Except for districts holding director's elections biennially and districts holding recall elections, the regular district election shall be held on the first Tuesday in May or at the earlier election during the year in cases where a special election for a tax levy over the 6 percent limitation is held earlier.

The regular and special elections of all school districts must be held on the following days (except for recall elections).

- a) 3rd Tuesday in February
- b) 4th Tuesday in March
- c) 1st Tuesday in May (Regular)
- d) 2nd Tuesday in June
- e) 4th Tuesday in September
- f) 1st Tuesday after the 1st Monday in November

District elections procedures are to conform to general election laws except as provided by the amended statutes.

Notice of district elections must be given to the county clerk NOT less than 35 days before the date of a regular district election. (ORS 259.080)

Notice of tax levy elections must be given to the county clerk NOT less than 35 days before the date of the tax levy election. (ORS 310.360, 310.330)

Candidate Nominations - ORS 259.070

Bond Election Notice - ORS 259.090

Newspaper Publication of Election Notices - ORS 259.100

Publication must be in a newspaper published in the district, if any, or if not, in a newspaper of general circulation in the district designated by the board not less than 30 days before date of election.

Publication dates are 15 to 25 days and 8 to 14 days before election.

Notice must be posted in three conspicuous places and at each polling place in the district 10 days before election.

See the statutes for other notice requirements.

Preparation of ballot titles shall be done by the county clerk.

Districts are liable for the election expenses.

Clerk

THE BALLOT MEASURE

The information on the ballot given the voters by which they express their preference for or against a tax levy outside the constitutional limitation should be stated clearly and concisely. The explicit question on the ballot identifies (1) the school district, (2) the fiscal year of the proposed levy, and (3) the sum, stated in dollars and cents, outside the 6 percent limitation. It is normally phrased in the form of a question and followed by labeled boxes:

☐ Yes, I vote in favor of the levy.

☐ No, I vote against the levy.

In addition to the information required on the ballot (usually referred to as the "ballot title"), the law authorizes a statement of up to but not exceeding 150 words in length to be printed on the ballot explaining the question. The explanation is to be worded plainly and factually, avoiding the use of technical language insofar as is practicable. No statement may be included that can be construed as advocating a yes or no vote upon the question.

The purpose of the explanatory statement is to provide the voter with pertinent information concerning the levy on which he is voting. Supplementing the required information described in the preceding paragraph, the statement may make observations concerning any of the following:

1. The district's tax base (or the lack of a tax base).
2. The effect of the intermediate education district offset on the levy.
3. The programs which the levy proposes to finance, etc.,

By carefully selecting the words, the explanation can do much to inform the voter of the reasons for the levy.

In addition to the explanatory statement discussed above, there shall appear on the ballot a statement comparing the school district's current operating levy with the proposed operating levy, in substantially the following form:

"If this measure is approved, the operating budget to be financed by local taxes for the year 19__-19__ will be \$_____ greater (or less) than the operating budget financed by local taxes for the preceding year."

OFFICIAL BALLOT

SCHOOL ELECTION

School District No. _____, _____ County, Oregon

To be held Monday, May __, 19 __

1/ TAX LEVY OUTSIDE THE CONSTITUTIONAL LIMITATION

PROPOSAL

Shall the Board of Directors of School District No. __, __ be authorized to levy for the fiscal year 19__-19__ the sum of \$____ outside the limitation set forth in Section II, Article XI of the Oregon Constitution?

EXPLANATION OF THE BALLOT QUESTION

- 2/ Without the approval of the voters the school board has authority to levy only the tax base of the district, which is \$____. This sum, together with available non-tax revenue, is insufficient to provide an education program adequate to meet the needs of the children of this district.
- 3/ If this measure is approved, the operating budget to be financed by local taxes for the year 19__-19__ will be \$____ greater (or less) than the operating budget financed by local taxes for the preceding year.

NOTE: A total of 150 words may be used in explanation of the ballot question in addition to a statement comparing current and proposed operating budgets substantially as expressed in the second paragraph above. Otherwise, the district may phrase the explanation to suit the local situation within the constraints imposed by ORS 310.385 (as discussed on the preceding page of this guide).

Mark (X) or (✓) in the square before the answer of your choice.

☐ Yes, I vote in favor of the levy.

☐ No, I vote against the levy.

- 1/ ORS 254.070 restricts this caption to six words.
- 2/ Districts with no tax base may consider substituting the following as the first paragraph of the EXPLANATION: "The district has no tax base, therefore, any tax to be levied by the school board must be approved by the voters. The available non-tax revenue is insufficient to provide an education program adequate to meet the needs of the children of this district."
- 3/ The amounts to be compared are the tax levies for operating purposes of the respective years.

The wording of the foregoing ballot is suggestive only. It should be changed to fit the particular circumstances of the school district concerned.

The County Clerk has responsibility for school district elections (including ballot format). The school election ballot should be cleared with that official.

DETERMINING THE ESTIMATED RATE OF LEVY

The tax rate is frequently the topic of inquiry and discussion during the development of the budget and the period immediately preceding the levy election.

The rate of levy may be determined through use of the formula:

$$R = \frac{T}{.001V}, \text{ where}$$

R = the rate of levy stated in dollars and cents per \$1,000 of true cash value of taxable property in the district

T = the proposed tax levy in excess of the constitutional limitation

V = the true cash value of taxable property in the school district

Step one Estimate the true cash value of the school district for the coming fiscal year.

In a hypothetical school district, let us assume that the current year's (1971-72) true cash value is \$35,662,710. Let us also assume that factors prevalent at the time the estimate is made point toward a drop of an estimated one million dollars, which would reduce the true cash value for 1972-73 to \$34,662,710.

Step two Convert the estimated true cash value to one-thousand-dollar units of valuation.

This may be done by multiplying the valuation times .001, or by simply moving the decimal point to the left three places and dropping the fractional portion.

The assumed valuation for 1972-73 of step one is thereby converted to \$34,662, which becomes the denominator of the fraction in the formula (.001V).

Step three Divide the tax levy by the true cash value expressed in terms of one-thousand-dollar units (the sum arrived at in step two).

Let us assume that this levy in our hypothetical district is estimated for 1972-73 to be \$404,691.

By substituting the assumed factors into the formula, we have:

$$R = \frac{404,691}{34,662} \text{ or } 11.68$$

IF THE LEVY DOES NOT PASS

Revoting Procedure

1. School board determines where budget adjustments, if any, are to be made. Reconvening of budget committee is not legally required, although it may be expedient to do so.
2. Recompute estimated levy and develop ballot.

NOTE: Budget should not be republished unless levy is increased over that previously published.

Another public hearing is not necessary.

3. Set the date of election and appoint election boards.
4. Publish NOTICE OF SCHOOL ELECTION (Form 3117) twice in the newspaper: first publication not more than 25 days nor less than 15 days before election; second publication not more than 14 nor less than eight days before the election - and post notice at least 15 days before election in three conspicuous places in the district and one at each polling place.
5. The tax levy shall be certified to the assessor on or before July 15. If approval of the voters cannot be obtained by this date, a request should be made to the assessor for an extension of time.

Procedure When Appropriations Are Required To Commence Operation On July 1 Before a Levy is Voted

1. If necessary, request an extension of time from the county assessor to file the levy.
2. Formally adopt the district school budget containing the levy most recently submitted to the voters.
3. Enact an appropriation resolution for the fiscal year just commencing similar to the sample on page 16 of this manual, but limit the total appropriations to the sum of available estimated receipts included in the following budget resource accounts:

Beginning Cash Balance	30 State Sources.
10 Local Sources except taxes to be levied	40 Federal Sources
20 Intermediate Sources	50 Bonds
County School Fund	70 Sales
IED Apportionment*	80-90 Receipts from Other Districts

* If district levy within the 6% limitation exceeds the IED Apportionment include such excess.

QUESTIONS AND ANSWERS CONCERNING EFFECTS OF LEVY DEFEATS
ON SCHOOL AND COMMUNITY COLLEGE FUNDS AND OBLIGATIONS

Question 1: How much Basic School Support will a school district receive if the adopted budget fails to fund a standard school?

We believe that the district would receive its apportionment. We reason this way because the distribution from the Basic School Support Fund is essentially a reimbursement program based upon the expenditures of a district for the prior year. We are assuming, therefore, that a district would be entitled to money from the Basic on a reimbursement basis. The problem of the district in regard to Basic Funds would be felt during the following year, at which time the reimbursement would be based on the expenditures during the year in which their levy had failed. The State Board does have some options in this latter regard, but they have not developed a policy statement on the subject.

Question 2: Would a Community College receive state operating funds even though unable to secure approval of a local operating fund tax levy.

Yes. Community colleges are reimbursed on a current full-time equivalent student basis. Thus, state funds are issued based upon student enrollment during each of the four quarters.

Question 3: If a levy is not approved at the first election, what procedure should the school board follow?

A. School board determines where budget adjustments, if any, are to be made. Reconvening of the budget committee is not legally required, although it may be expedient to do so.

B. Recompute estimated levy and develop the ballot.
NOTE: Budget should not be republished unless levy is increased over that previously published.

Another public hearing is not necessary unless proposed levy is increased.

C. Set the date of election and notify county clerk.

D. Publish NOTICE OF SCHOOL ELECTION (Form 3117) twice in the newspaper; first publication not more than 25 days nor less than 15 days before the election; second publication not more than 14 nor less than eight days before the election. Post notice at least 10 days before election in three conspicuous places in the district and one at each polling place.

- E. The tax levy shall be certified to the assessor on or before July 15. If approval of the voters cannot be obtained by this date, a request should be made to the assessor for an extension of time.

Question 4:

If a levy has not passed by July 1, may a district make expenditures for required operation?

Yes, by using the procedures outlined on a preceding page entitled, IF THE LEVY DOES NOT PASS.

Question 5:

Would an elementary or secondary district receive the full IED equalization funds?

Yes. We believe that the district would be entitled to its entire apportionment from the IED equalization fund. There are differing interpretations as to whether this would happen. The law seems unclear in that it does not specifically provide for such situations, and to the best of our knowledge there are no Attorney General's opinions clarifying it at this time. If we understand the intent of the IED equalization fund, however, our legal advice indicates that the district would receive its apportionment even though no local levy was extended.

Question 6:

Are any other state funds available to help districts that continue to vote down their tax levies?

No. This is a popular misconception that prevails around the state. There are no such state funds available. The only way more state funds would become available is by a special session of the legislature making this possible.

Question 7:

What happens financially to a district that fails to operate school for at least 175 classroom days and also fails to meet other state standards?

We foresee that two conditions might result:

1. With reference to the County School Fund, the law states that a district is entitled to apportionment from the County School Fund if it conducts school for 175 days during the previous year. Should your levy fail and, as a result, you were not able to conduct 175 days of school, we believe you would lose your apportionment from the County School Fund during the following school year.
2. With reference to the Basic School Support Fund, if you fail to conduct school for 175 days or to meet other state standards and are thus declared a nonstandard district, the nonstandard condition would become subject to action by the State Board

of Education. The application of standards as they relate to Basic distribution is governed by administrative law and the State Board's policy, rather than statute. Present State Board policy requires 175 classroom days.

Question 8:

What is the school board's responsibility when tax levies continue to be defeated?

It is the responsibility of the local board to continue to try to pass a tax levy to balance the budget. In the event of repeated defeats of a measure to allow the district to levy a tax in excess of the six percent limitation, the district would, by no later than October, have no alternative but to formulate a budget for the then current year utilizing such revenues as are available to it. Certainly the budget might be totally inadequate; nevertheless, the law requires that the district operate its school program within the budgetary provisions. There is no possibility of a deficit financing program, and I would see no alternative but for you to operate your schools as long as the money lasts and close them thereafter.

It is possible for a Board to ask the assessor and/or tax collector to extend a special levy after October, but that is entirely a local option matter. It is our opinion that the local assessor and collector can be required to levy a legal tax, even in December, but let's hope we don't have to push that far into the year.

I know of no available state funds that could be used to pick up a local school or community college operation in such a situation. That would take special legislative action.

THE INTERMEDIATE EDUCATION DISTRICT TAX LEVY

The Intermediate Education District is a tax equalization unit composed of all districts of all types reporting in each of the state's IED's. There are 29 intermediate districts operating in the state - 25 operate under ORS 334.250 to 334.290 and the remaining four under ORS 334.350 to 334.400. The method of achieving the tax equalization under each differs considerably.

IED'S OPERATING UNDER ORS 334.250

Establishing the Levy

To establish the levy that will be extended during an ensuing year, the following steps are necessary:

1. Determine total estimated local school levies for operating purposes in the IED during the current year. This is the sum of the levies extended by the assessor for the current year for all school districts within the IED plus the IED total levy extended:

Amounts included for payment of bonds and interest
Amounts for the acquisition of school sites
Amounts for constructing and equipping new school facilities
and major additions to existing school facilities

2. Estimate pupil increase or decrease between the current and ensuing year. This figure is obtained in the following way:

ADM of IED as of December 31 during current school year
minus
Number of children completing 12th grade during current school year
plus
Number of five-year olds estimated to enroll in lowest grade during
ensuing year
equals
Estimated ADM of IED for ensuing year

3. Determine the amount necessary for the Intermediate Education District board's own budget.
4. Using the foregoing computations, the IED levy as extended, subject to the six percent limitation, equals:

$$\begin{array}{l} \text{Total applicable} \\ \text{Local district} \\ \text{Levies for} \\ \text{Current year} \end{array} \times \frac{\text{Estimated ADM} \\ \text{ensuing year} \\ \text{December 31 ADM} \\ \text{current year}}{\text{}} \times 50\% + \text{IED board} \\ \text{budget}$$

Distributing the Levy

1. The amount set aside for distribution as tax offset is determined as follows:

$$\begin{array}{l} \text{The amount of the levy} \\ \text{minus} \\ \text{IED administrative budget} \\ \text{minus} \\ \text{Amount set aside for distressed districts (if any)} \\ \text{equals} \\ \text{Amount available for equalization distribution} \end{array}$$

2. The amount of the distressed district fund, if such is established, is determined by the IED board. Funds from the account can only be disbursed to:
 - a. Districts maintaining an elementary school with less than 6,000 total days membership, or high school with less than 13,500 total days membership, the continued existence of such schools being necessary because of their isolation.
 - b. Districts in which the true cash value per pupil in average daily membership of the district is less than 50 percent of the true cash value per pupil in ADM of the IED.

The district's entitlement, whether determined by step "a" or step "b" above, cannot exceed the corresponding entitlement from the distribution of the IED equalization fund.

3. District allocation from the IED equalization fund is determined as follows:

$$\begin{array}{l} \text{Resident ADM of the IED as of December 31, current year} \\ \text{minus} \\ \text{Number of children completing highest grade taught in each of the} \\ \text{districts} \\ \text{plus} \\ \text{Number of children enrolling in lowest grade taught in each of the} \\ \text{districts} \\ \text{equals} \\ \text{Estimated adjusted resident ADM of IED for ensuing year} \end{array}$$

A ratio is established for each district. The ratio represents the following:

$$\text{District ratio} = \frac{\text{District's estimated resident ADM}}{\text{Total IED estimated resident ADM}}$$

This ratio, applied to the equalization funds available, determines the portion that each district will receive.

IED'S OPERATING UNDER ORS 334.350 TO 334.400
(Grant, Harney, Wallowa, and Wheeler)

Establishing the Levy

1. Each component district of the IED submits its budget to the IED board.
2. The IED Board may approve or reject, increase or reduce, any item or amount in any such budget, but shall not reduce the total budgeted current operating expenditures below the foundation program level provided for in the BSSF.
3. The districts are notified of any action taken and a budget hearing held at which time the districts have to be heard. Subsequent to the hearing the IED board determines the final amount of each district's budget that is to be included in the IED levy and each district is so notified.
4. In addition to the amount levied for the component districts' approved budgets, the IED board adds an amount sufficient for the expenditure of the IED board and the IED superintendent. At its discretion the IED board may add to its own budget an amount, not to exceed five percent of the combined budgets of all districts in the IED, to be placed in an Emergency Aid Fund. Example:

Total of approved district budgets plus the IED budget
 minus
Estimated receipts and available cash balances (at budget time)
 plus
Estimate of taxes levied but not received in ensuing year
 equals
IED county-wide levy

Distributing the Levy

1. The estimated operating expenses of the IED are deducted from the levy proceeds.
2. From the remainder each district receives that percentage of the total levy proceeds available as its approved levy bears to the total approved levies of local districts in the IED.

STATISTICS

ESTIMATING 1974-75 APPORTIONMENTS FROM STATE FUNDS

30 REVENUE FROM STATE SOURCES

31 State Appropriations

31.1 Basic School Support Fund

An approximation of the Basic Apportionment for budget purposes may be gained by applying the following measures.

Foundation Program

Flat Grants - \$240.00 times the estimated weighted (1.0 for grades K-8 and 1.3 for grades 9-12) resident average daily membership for 1973-74. Kindergarten ADM should be computed on the basis of half days.

Equalization - It is virtually impossible for the local district to estimate receipts for this fund, and state estimates cannot be made until all information from all districts has been received. Each district should postpone this part of its budget estimate until it receives the official state estimate in March.

Growth \$240.00 times the estimated increase in weighted resident average daily membership for the year 1973-74 to the second quarter ending December 31, 1974.

Decline ADM_w \$240.00 times 75% of the estimated decrease in weighted resident average daily membership for the year 1973-74 to the second quarter ending December 31, 1974.

Transportation A reasonably conservative estimate would be 55% of allowable expenditures for transportation in 1973-74.

This procedure should produce a budget estimate for the Basic School Support Fund which can be used in committee deliberations until such time as the official estimates are distributed in March of 1975.

31.3 Special Programs

Handicapped Children's Program

To qualify for reimbursement for special education services, school districts shall submit to the Superintendent of Public Instruction Form 5117, "Estimate of Claim for Reimbursement for Education of Handicapped Children." Formulas for estimating reimbursement under the four areas, Home Instruction or Hospital Instruction, Transfer to Other Districts, Services Supplementary to Those of The Regular Classroom, and Instruction in the Special Class, are as follows:

1. Home Instruction Or Hospital Instruction

The general principle to follow is that a district must pay the first per capita cost and that claim for reimbursement may be made for amounts in excess of the regular per capita cost up to one and one-half times the per capita cost of instruction for other children in the district.

2. Transfer To Other Districts

If the district transfers a child to another district, the resident district must first expend its regular per capita cost; reimbursement for excess cost cannot exceed one and one-half times such per capita cost.

3. Services Supplementary To Those Of The Regular Classroom

This phase of the Handicapped Child Program refers to the itinerant teacher program in local districts providing services to children with speech handicaps or extreme learning problems. Reimbursement is at the rate of 50 percent of the salary of full-time certificated special education personnel who qualify under the Handicapped Child Program: special education teachers, supervisors, directors, school psychologist. No reimbursement will be granted on fixed costs (PERS and FICA), supplies and equipment.

4. Instruction In The Special Class

Reimbursement is based on the ADM of the special unit times the per capita cost of operating the special school or class. Maximum reimbursement is one and one-half times the regular per capita cost.

Approved claims of \$500 or less are paid in full. If funds are insufficient to pay all claims over \$500, a prorata payment will be made.

Mentally Retarded Children's Program

School districts which have operated a special instructional program for the educable mentally retarded (EMR) may wish to use their last paid claim as a basis for budget estimation, since the amount of reimbursement per class is fixed amount.

Districts planning to initiate a new special instructional program have no average reimbursement figure from which to make an estimate; however, their estimate could be based on the minimum figure of \$3,000 per special unit or the maximum amount of \$4,000 per unit.

Interdistrict agreement is one method often used by small districts to provide special instructional services for educable mentally retarded pupils. The district in which the child is a resident should bear the costs of the pupil's education that are not covered by state reimbursement.

State reimbursement to any school district, region, or IED is based on three main requirements--a certified teacher to teach the pupils, certified pupils, and a classroom that meets state standards. Reimbursable expenditure items include:

Teachers Salary: The maximum reimbursement per school year is \$3,000 per teacher regardless of salary paid. The teacher must have held a valid certificate to teach educable mentally retarded children during the reimbursement period.

Special Supplies and Equipment: The maximum reimbursement is \$300 for each special program. Costs represent extra expenditure for education of certified MR children beyond the regular expenditure for regular class children.

Transportation: Maximum reimbursement of \$700 may be claimed for transportation provided to certified MR pupils for special transportation needs beyond the regular transportation provided to all pupils in the district.

Supervisor: A full-time supervisor is one who actively supervises a minimum of eight special instructional programs for the educable mentally retarded and who holds a supervisor's credential in the area of mental retardation. In any fiscal year the amount of reimbursement for a supervisor shall not exceed \$4,000 or 50 percent of such salary, whichever is the lesser.

Work Experience Coordinator: A work experience coordinator is a certified teacher of the educable mentally retarded who is employed full-time to supervise work study programs for

three or more secondary level special instructional programs. In any fiscal year the amount of state reimbursement shall not exceed \$3,000 per work experience coordinator, regardless of the salary.

If monies appropriated are insufficient to pay the full reimbursable amount of all approved claims, the reimbursement to each district shall be prorated according to the ratio that total funds available bears to the total amount required to pay all claims in full.

Salary for Interns = \$4933 (2/3 of \$7400)

HB = Highest Beginning Allowance. (**)

- Refers to term or quarter hours.

Each salary represents a year of experience credit; i.e., Step 0 = no experience credit; Step 6 = six years of experience credit, etc. Experience means that previous teaching experience as a teacher is allowed upon entering the District according to the policy in effect at that time, plus experience within the District.

This schedule does not constitute a contract with any employee, or group of employees, but is a guide to the District School Board in fixing salaries. The professional study requirements adopted by the District School Board are a part of, and apply to, this schedule. For the 1973-74 school year the contract days are 190.

NOTES REGARDING ADMINISTRATIVE SALARY SCHEDULE

1. Teaching Principals will be compensated by adding a differential to the salary they would receive as a classroom teacher.

1 - 3 Teachers	\$1,100.00
4 - 7 Teachers	\$1,350.00

2. Other administrative positions which are now placed on the administrative differential schedule will be compensated as follows:
 - a. An administrator new to the District will be placed at the step within the salary range for the position as recommended by the Superintendent.
 - b. An administrator promoted to a new position from within the staff will be placed on a step within the range for the new position at a dollar figure no less than the salary he would have received the following year had he remained in his former position.
 - c. Contingent upon satisfactory performance, an administrator will move annually from one step to the next within the range until the top step is reached.
 - d. The Superintendent annually shall review and recommend equity adjustment in salaries to insure that comparable salaries will be paid for positions of equal responsibility held by individuals with comparable experience.
3. This schedule will be adjusted appropriately to changes which take place in the teacher salary schedule.

SCHOOL DISTRICT "B"

MONTHLY SALARY SCHEDULE FOR CLASSIFIED EMPLOYEES
1973-74

(Continued)

The salary schedule provides for the classification of all employees according to the nature of the work that is performed. This schedule does not constitute a contract with any employee.

Changes in position involving a new duty or responsibility shall be accomplished by moving the employee affected to the comparable salary step in the new salary range which provides a salary one step higher than the salary he was receiving prior to the change, or to the first step on the new salary range, whichever is greater.

The individual selected shall not be placed on a step in excess of his level of training and experience and not to exceed Step 3. Credit for years of experience is limited to three years as per school district policy.

If an employee is not initially employed prior to the fifteenth of any month, the anniversary date of his six month probationary period shall begin the first working day of the following month.

Annual increases: Except for the increase authorized at the end of the probationary service, unless otherwise defined in the Administrative Code, consideration for the annual increase shall normally come at twelve month intervals from anniversary date of the last increase for employees not on the top step of their assigned salary range.

Assigned substitutes who are replacing a regular employee for 20 consecutive days shall be assigned to the comparable salary step in the new salary range which provides a salary one step higher than the salary he was receiving prior to the change, or to the first step on the new salary range, whichever is greater.

SCHOOL DISTRICT "C"
ADMINISTRATIVE SALARY SCHEDULE

1973-74

Administrative salaries shall be determined upon application of a base salary of \$13,024 for each administrator (equivalent to the salary to be paid a certificated staff member for 1973-74 who has a M.A. + 45 Hrs.) plus extra days devoted to work beyond the 190 days contracted for by certificated staff (extra days at the rate of \$69 per day), plus the amount resulting from application of the appropriate complexity and responsibility factor to the starting salary (\$7,400) of certificated staff members for 1973-74.

Ratios for determining complexity and responsibility factor:

1. Horizontal placement of individuals is based upon experience and performance in each particular assignment. It is possible to be retained on the same step in successive years and is also possible to advance more than one step in one year. Recommendations for placement are made by the combined decision of building principals, district director of personnel, and in the case of athletic assignments, by the district athletic director.

2. Vertical steps reflect difficulties and responsibilities of various extra duties.

3. The entire schedule is based upon the entry level of the salary schedule adopted for the district certified staff in any given school year.
